

Node Business Summary

MetriqOne · metriq.one · Evidence without noise

MQ-NBS-SUMMARY-2025

Scan to verify

**A Node Business serves a market that currently
does not have access to this service.**

WHAT YOU ARE

A certified local service point with a printer, a scanner, and an internet connection.

You bridge the gap between the system and the people who cannot reach it directly.

WHAT YOU DELIVER

01 MCA Setup — skilled one-time service, you build the measurement foundation

02 Member Operator Registration — unique ID, QR-coded form generated

03 Form Printing — blank observation forms printed at your node

04 Form Scanning and Upload — attributed, dated, immutable

05 Weekly Evidence Report — printed and handed to the Member Operator

06 Subscription Processing — you hold the bank account, they pay cash

TWO PATHS — ONE PRINT POINT

Paper path

Form printed · filled · scanned · report printed at your node

PWA path

App submission · printed report still collected at your node

WHO YOU SERVE

A market vendor. A cooperative member. A micro-enterprise operator. A programme participant.

Each one has a business and no evidence of it. You are the one who changes that.
